Profile

Computer Science Engineering student specializing in Front-End Development, with experience building interactive web applications using JavaScript, HTML, CSS, and responsive design frameworks. Adept at leveraging AI tools and modern technologies, including REST APIs, Git/GitHub version control, and DOM manipulation, to develop efficient and scalable solutions. Strong problem-solving abilities with a calm and composed approach under pressure. Seeking Front-End Developer / Web Development internship opportunities to apply technical skills in real-world projects.

Education

Bachelor of Technology (B.Tech)

Computer Science Engineering

Currently in 2nd Year

Projects

- **To-Do List Application**

Developed an interactive task management application using JavaScript, DOM manipulation, HTML, and CSS, enabling users to add, delete, and manage daily tasks efficiently with a responsive user interface.

Technical Skills

- JavaScript (Basics, OOP, DOM Manipulation, ES6+)
- HTML5
- CSS3 (Tailwind CSS, Bootstrap, Responsive Web Design)
- MySQL
- DBMS (Database Management Systems)
- Git, GitHub, Version Control
- RESTful APIs, Cross-Browser Compatibility, Debugging

Certifications

- Oracle Cloud Infrastructure Certified AI Foundations Associate (2025)
- Artificial Intelligence and Machine Learning Course – Pregrad (Jan–Apr 2025)

Soft Skills

- Time Management
- Public Speaking
- Fast Learner
- Problem Solver
